Shri Mr. Ramanand Agrawal
Chairman
Mahamaya Steel Industries Limited
B/8-9, Sector-C, Sarora,
Urla Industrial Complex,
Raipur
Chattisgarh 493221

September 24, 2020

Confidential

Dear Sir,

Credit rating for bank facilities

On the basis of recent developments including operational and financial performance of your Company for FY20 (Audited) and Q1FY21 (Audited) and the possible impact of the same on the credit profile of your company, our Rating Committee has reviewed the following ratings:

Facilities	Amount (Rs. crore)	Rating ¹	Rating Action
Long Term Bank Facilities	48.71 (Reduced from 56.73)	CARE BBB-; Stable (Triple B Minus; Outlook: Stable)	Reaffirmed
Long Term / Short Term Bank Facilities	20.00	CARE BBB-; Stable / CARE A3 (Triple B Minus ; Outlook: Stable / A Three)	Reaffirmed
Total Facilities	68.71 (Rs. Sixty-Eight Crore and Seventy-One Lakhs Only)		

2. Refer **Annexure 1** for details of rated facilities.

BA 

¹Complete definitions of the ratings assigned are available at www.careratings.com and in other CARE publications.

CARE Ratings Ltd.

3. The rationale for the rating will be communicated to you separately. A write-up (press release) on the above rating is proposed to be issued to the press shortly, a draft of which is enclosed for your perusal as **Annexure 2**. We request you to peruse the annexed document and offer your comments if any. We are doing this as a matter of courtesy to our clients and with a view to ensure that no factual inaccuracies have inadvertently crept in. Kindly revert as early as possible. In any case, if we do not hear from you by September 28, 2020, we will proceed on the basis that you have no any comments to offer.
4. CARE reserves the right to undertake a surveillance/review of the rating from time to time, based on circumstances warranting such review, subject to at least one such review/surveillance every year.
5. CARE reserves the right to revise/reaffirm/withdraw the rating assigned as also revise the outlook, as a result of periodic review/surveillance, based on any event or information which in the opinion of CARE warrants such an action. In the event of failure on the part of the entity to furnish such information, material or clarifications as may be required by CARE so as to enable it to carry out continuous monitoring of the rating of the bank facilities, CARE shall carry out the review on the basis of best available information throughout the life time of such bank facilities. In such cases the credit rating symbol shall be accompanied by "ISSUER NOT COOPERATING". CARE shall also be entitled to publicize/disseminate all the afore-mentioned rating actions in any manner considered appropriate by it, without reference to you.
6. CARE ratings do not take into account the sovereign risk, if any, attached to the foreign currency loans, and the ratings are applicable only to the rupee equivalent of these loans.
7. Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.

Disclaimer

CARE's ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE's ratings do not convey suitability or price for the investor. CARE's ratings do not constitute an audit on the rated entity. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE or its subsidiaries/associates may also have other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is, inter-alia, based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors. CARE is not responsible for any errors and states that it has no financial liability whatsoever to the users of CARE's rating.

Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.

Detailed Rationale & Key Rating Drivers

The reaffirmation in the ratings assigned to the bank facilities of Mahamaya Steel Industries Limited (MSIL) continues to draw strength from long track record of the company and experienced promoters, strategic location of the plant, moderate financial performance of the company during FY20 (refers to the period from April 1 to March 31) and moderate debt coverage indicators.

The ratings are however, constrained by client concentration risk, high exposures to group companies, low capacity utilization, profitability susceptible to volatility in input cost and cyclicality in the steel industry amidst intense competition. The rating also takes into consideration the deterioration in the financial performance of MSIL during Q1FY21 and the possible impact of Covid-19 pandemic on the business operation and liquidity position of the company.

Key Rating Sensitivities

Positive Factors

- The ability of the company to increase its scale of operation with improvement in its operating margin beyond 8% on a sustained basis
- Reduction in overall gearing below 1x on a sustained basis

Negative Factors

- Deterioration in the financial performance in the ensuing quarters coupled with moderation in the overall gearing ratio and debt coverage indicators beyond current levels (FY20)

Detailed description of key rating drivers

Key Rating Strengths

Long track record of the company and experienced promoters

MSIL incorporated in 1988, was promoted by Raipur based Mr. Ramanand Agarwal. Mr. Agarwal has more than four decades of experience in the iron and steel industry. Currently, the day to day affairs of the company is looked after by Mr. Rajesh Agrawal (Son of Mr. Ramanand Agrawal) along with the support from a team of experienced professionals.

¹Complete definitions of the ratings assigned are available at www.careratings.com and in other CARE publications.

CARE Ratings Ltd.

Strategic location of the plant

The manufacturing facilities of MSIL enjoys logistical advantage due to their strategic location in Raipur, Chhattisgarh with availability of raw material like sponge iron, steel scrap and well connectivity to road/ rail leading to cost effectiveness.

Moderate financial performance in FY20, albeit deterioration in Q1FY21

The Total Operating Income (TOI) of the company registered a y-o-y de-growth of ~23% during FY20 at Rs.358.38 crore. The decrease in top line was mainly on account of moderation in the average sales realization during the said period. Consequently, the company reported lower PBILDT margin of 4.58% (Rs.16.40 crore) during FY20 as against 5.29% (Rs.24.74 crore) during FY20. Further, PAT level also dipped from Rs.6.10 crore in FY19 to Rs.3.25 crore in FY20 registering a PAT margin of 0.91% in FY20 (1.31% in FY19). However, MSIL earned GCA of Rs.5.86 crore (Rs.12.06 crore in FY19) which remained satisfactory as against debt repayment obligation of Rs.3.73 crore in FY20 (including Rs.2.2 crore as redemption of preference shares).

In Q1FY21, MSIL reported net cash loss of Rs.1.39 crore on a TOI of Rs.27.75 crore which is attributable to COVID-19 induced stringent and intermittent complete/partial lockdown during the said period. Lockdown led to complete closure of operations during early part of quarter coupled with decline in demand from user industries attributable to overall weak macroeconomic environment.

Moderate debt coverage indicators

Capital Structure continued to remain moderate with improvement in the overall gearing ratio from 1.78 times as on March 31, 2019 to 1.39 times as on March 31, 2020. The improvement in overall gearing is on the back of gradual repayment of term debt, reduced LC backed creditors and gradual accretion of profit to reserve. TD/GCA however declined to 17.27 times as on March 31, 2020 as against 10.24 times as on March 31, 2019 on account of decline in GCA during FY20

Key Rating Weaknesses

Low capacity utilization

The capacity utilization of the rolling mill and melting shop (MSIL) continued to remain low at 43% and 53% respectively in FY20.

Client concentration risk

The company continues to have high customer concentration with top 10 customers contributing ~40% of the total revenues in FY20 (as against ~38% in FY19).

High Exposure to group companies

The company has significant exposure to its group companies in the form of investments, loans and advances to its group companies amounting to Rs.31.96 crore as on March 31, 2020 (accounting for nearly 43.91% of the net worth as on March 31, 2020 as against 50% of the net worth as on March 2019). The company procures a major portion of its sponge iron requirement from its group/ associate companies and also sells the finished goods i.e. blooms/billets to its associate concern Abhishek Steel Industries Limited (ASIL). After adjusting for exposure to group companies, adjusted overall gearing works out to be 1.15x as on March 31, 2020 (3.57x as on March 31, 2019).

BA 

CARE Ratings Ltd.

Partial exposure to volatility in the prices of raw material

Raw material (sponge iron/scrap) is the major cost driver constituting about 70% of the cost of sales in FY20. The prices of its raw materials are highly volatile in nature and any upward movement in the prices of the raw material without any corresponding movement in the finished goods prices may adversely affect the profitability of the company.

Cyclical nature associated with the steel sector characterized by intense competition

The steel industry is sensitive to the shifting business cycles, including changes in the general economy, interest rates and seasonal changes in the demand and supply conditions in the market. It is also characterized by high degree of fragmentation due to the presence of numerous unorganized players. Further, low level of product differentiation in the downstream steel segment further intensifies the competition, leading to lower bargaining power vis-à-vis the customers.

Outlook on the industry

After falling to a record low of 3.1 million tonnes (mt) in April 2020, India's crude steel and finished steel production have shown gradual m-o-m improvement in each of the months during May-August 2020. Production of crude steel and finished steel increased by 5.1% and 6.7%, respectively in August 2020 compared to July 2020. Domestic steel players have been ramping up capacities with easing of lockdown measures and pick-up in demand. However, as compared to August 2019, production of crude steel and finished steel were lower by 4.2% and 5.5%, respectively in August 2020 but the y-o-y fall has been lower when compared with the previous month. Consumption of finished steel in August 2020 registered an increase of 7.7% on m-o-m basis but was lower by 18.4% over August 2019. India's finished steel exports jumped 172% in June 2020 compared to February 2020 (pre-COVID) mainly due to increased exports to China, notwithstanding the on-going trade tensions between the two countries. However, exports which had peaked in June 2020 started to slide sequentially from July onwards. Exports have been lower sequentially in July and August 2020 declining by 24.5% in August 2020 as compared to July 2020.

Liquidity Analysis: Adequate

Adequate liquidity is characterized by average working capital utilization of ~76% during 12 months ending July 31, 2020 indicating average unutilized working capital limits of Rs.11.04 crore. The company had cash and cash equivalents of Rs.3.06 crore as on March 31, 2020 (Rs.4.39 crore as on March 31, 2019) backed by strong debtors' realization during Q1FY21. MSIL is estimated to have sufficient cushion and generate adequate GCA to repay its debt repayment obligation for FY21 (including redemption of preference share capital and repayment of COVID-19 loan). The company had availed moratorium on debt servicing with respect to interest on CC and principal repayment of term loan (till August 2020) under Reserve Bank of India's COVID-19 regulatory package which has now been serviced. MSIL has also availed a COVID-19 Relief Loan of Rs.5.29 crore

Analytical approach: Standalone
